Sanitary Sewer Improvements Planned for 17th Street

Work set to begin in April

Dear Valued Customer,

The City of Norfolk Department of Utilities has scheduled a sewer replacement project in your neighborhood. The project area (shown in the map to the right) will receive new sanitary sewer pipes and a resurfaced street.

The City's contractor, Inner-View Construction, is planning to begin work no later than the first week in April and is anticipated to finish before the end of May. During construction, no parking on 17th St. will be allowed.

The City and our contractor will do our best to minimize the unavoidable disruptions associated with construction.

If you have any questions regarding this project, please do not hesitate to contact the City's on-site Construction Inspector, Mr. Alex Swafford. He may be reached by cell phone at 621-4086 to respond quickly. You may also contact Megan White, Project Manager, at 664-6540.

The Department of Utilities appreciates your patience during this project.

Sincerely,

Eric Tucker
Assistant Director of Utilities
